

Andre Korkush

Full-Stack Web Developer

ABOUT ME

Full-stack developer with two decades of experience and a Ruby on Rails enthusiast. I build websites, applications, and APIs across the full stack. For the past few years, my focus has been AI: LLMs, chatbots, image/video generation, and fine-tuning models on custom data.

EXPERIENCE

Co-founder & Developer

2021 - Present

[Visit Site](#)

fbmhd Ltd - London, UK

- > Built multi-tenant AI companion platform with chat, voice cloning, image/video generation
- > Integrated LLMs for chat, voice synthesis and real-time calls, custom image/video pipelines
- > Built Rails 8 admin panel with analytics, fraud detection, and multi-database architecture
- > Developed affiliate program with tracking, commission calculations, and payouts
- > Wired up multiple payment processors (crypto, cards) for high-risk uncensored AI vertical

Web Developer & Sysadmin

2020 - 2021

Raiford - New York, NY

- > Set up servers for video streaming, dating, and online gaming sites
- > Built and maintained the sites on top of that infrastructure
- > Looked after uptime and performance, especially during traffic spikes
- > Worked closely with business side to align tech with commercial goals

Co-founder & Developer

2010 - 2020

2k Media Ltd - Belize City, Belize

- > Built, owned 50%, and ran an affiliate program around five video-streaming websites
- > Handled tracking, payouts, landing pages, and affiliate attribution
- > Tuned funnels and offers based on conversion data
- > Managed partners, traffic quality, and fraud detection

Independent Webmaster

Early Career

Phuket, Thailand

- > Built picture and video streaming sites, drove 100k+ unique visitors per day
- > Deep experience in traffic trading and search engine optimisation
- > Constantly tested layouts, content, and internal linking to maximise engagement
- > Analyzed logs and analytics to understand and optimize traffic sources

EDUCATION

MPhys (Theoretical / Quantum Mechanics)

2006 - 2010

Newcastle University
